

Icarus Lima

DIGITAL PRODUCT DESIGNER (UX-UI)

I am a seasoned Product Designer specialising in creating user-centric experiences where creativity, data, and AI converge to drive innovation. I believe great design is not just about aesthetics—it transforms how people interact with technology, influences behaviour, and shapes the perception of brands and businesses.

Motivated by learning, mentoring, and collaborating, I empower teams to push the boundaries of UX innovation.

I strive to refine the creative process by integrating human-centred design thinking with data insights and AI-driven tools, enabling faster, smarter decision-making that elevates both user and business outcomes.

IDEAS DATA AI-ENABLED DESIGN USER-CENTRICITY

I work at the intersection of strategy, design, and technology—bridging the gap between design, development, business, and users. By leveraging data analytics and AI-powered solutions throughout the design lifecycle, I unlock new opportunities to solve complex problems and drive measurable impact.

Throughout my career, I've helped deliver transformative digital experiences for some of Australia's most recognised brands, including Foxtel, SBS, Vodafone, Woolworths, News Corp, Ticketek, Service NSW, GrainCorp, THE ICONIC, and others.

My goal is simple: to produce meaningful work that exceeds expectations—creating lasting value for users, businesses, and society through creativity, empathy, and the smart application of technology.

HelloMolly

PRODUCT DESIGNER CONTRACTOR

2023 - 2023

Project Overview

Objective: To strategically collaborate with tech and executive teams to improve the Hello Molly e-commerce platform.

Key Focus Areas:

1. Fresh Interface Design:

- Develop a modern, user-friendly interface that showcases Hello Molly's product range effectively.

2. Feature Enhancements:

- Contextual Search: Improve the search functionality to provide more relevant results based on user behaviour and preferences.
- Wishlist Capabilities: Implement a feature that allows users to save their favourite items for future purchases.
- User Profiles: Enhance user profiles to provide a personalised shopping experience.

3. Data Collection Improvements:

- Strengthen methods for collecting user data to better understand customer preferences and improve overall service.

Expected Outcomes:

- A more engaging user experience.
- Increased user satisfaction and retention.
- Better insights into customer behaviour to drive future improvements.

Oovvuu

HEAD UX-UI

2021 - 2023

Project Overview

Objective: To strategically collaborate with the tech and executive teams to enhance the Oovvuu platform, empowering publishers and journalists.

Key Focus Areas:

1. Engagement Enhancement:

- Enable publishers and journalists to enrich their articles by integrating curated videos, increasing user engagement and content value.

2. Sponsored Advertisements:

- Introduce mechanisms for exposing users to sponsored advertisements, creating opportunities for revenue generation.
- Ensure that advertisements are relevant and non-intrusive to maintain a positive user experience.

3. Revenue Generation:

- Develop a revenue-sharing model that benefits both publishers and Oovvuu, ensuring a sustainable business model.

Expected Outcomes:

- Increased engagement rates on articles.
- Enhanced user experience through integrated video content.
- Additional revenue streams for both publishers and the Oovvuu platform.

Rockmelon

HEAD UX-UI

2018 - 2019

Project Overview

Objective: To design and manage a platform that empowers parents and therapists of children with autism spectrum disorders and learning disabilities.

Key Features:

1. Suite of Apps:

- Developed a comprehensive suite of applications designed to centralise communications, manage tasks, and facilitate learning blocks.

2. User Research:

- Conducted strategic user research and interviews to ensure the platform meets the needs of its users effectively.
- Utilised feedback to iterate on features and improve user experience.

Expected Outcomes:

- Enhanced communication between parents and therapists.
- Streamlined task management for better organisation.
- Improved learning experiences for children with autism spectrum disorders and learning disabilities.

The Iconic

HEAD UX-UI

2015 - 2019

Project Overview

Objective: To manage a team of eight designers across cross-functional teams, enhancing user experience (UX) on the platform.

Key Responsibilities:

1. Team Management:

- Oversaw a diverse team of eight designers, each focused on unique end-user touchpoints throughout the platform.

2. User Experience Improvement:

- Utilised data strategically to analyse shopping behaviour, enabling the business to enhance its product suite effectively.
- Aimed to empower users, leading to increased engagement and improved spending on the platform.

3. UX Design Methodologies:

- Curated and advocated for UX design methodologies and patterns to facilitate fast design and implementation processes.

Expected Outcomes:

- A more cohesive and engaging user experience across the platform.
- Increased user spending and engagement metrics.
- Streamlined design processes through the adoption of effective UXD methodologies.

Skyfii

LEAD UX-UI

2015 - 2015

Project Overview

Objective: To deliver a leading analytics platform that enables businesses to gather improved intelligence about their operations and users.

Key Responsibilities:

1. Brand Identity Design:

- Developed a strong brand identity for the Skyfii analytics platform to ensure it resonates with target audiences.

2. User Experience Definition:

- Defined the user experience, focusing on intuitive design and usability to enhance user engagement with the platform.

3. Collaboration:

- Created and illustrated design concepts while collaborating closely with development teams and clients across various bricks-and-mortar retailers.

Expected Outcomes:

- A robust analytics platform that offers businesses valuable insights into their operations.
- A distinctive brand identity that enhances market presence.
- Improved user experience leading to increased adoption and satisfaction among users.

Design & UX

Skyfii logotype, or wordmark, has evolved just as Skyfii is evolving. Its simplicity denotes quality and elegance, and it is meant to stand alone.

COLOR

The logotype should always contrast with the background. There are 4 versions of the logotype to ensure legibility and optimum reproduction quality in all printing processes and digital needs.

Full color

The full color - positive logotype is the preferred & should be used wherever possible.

Full Color — Light background

skyfii blue
#10101b
RGB: 16-16-27
C:79 M:73 Y:54 K:78

I- blue

News Corp

SENIOR UX-UI

2014 - 2015

Project Overview

Objective: To focus on design content and user experience for the digital edition of News Corp mastheads.

Key Responsibilities:

1. User Experience Design:

- Defined UX best practices to ensure a seamless and engaging user experience across digital platforms.

2. Collaboration:

- Worked closely with development, editorial, and executive teams to align design strategies with business objectives.
- Facilitated cross-functional collaboration to integrate feedback and enhance product offerings.

Expected Outcomes:

- A cohesive and user-friendly digital experience for readers of News Corp mastheads.
- Improved engagement metrics and user satisfaction through the implementation of UX best practices.
